

## WRDGA Pro Ladies Rules Sheet

### Entries:

Teams: Clubs will offer a spot to the three players who attended the most WRDGA events that season. As women cannot play you will go down the list until options are exhausted. If members have the same number of rounds played, ties should be broken by players index.

A club may borrow a member from another club to form a first team, but only after all eligible club players have been contacted.

Second Teams: Clubs with many members may request a second team to send. This team must be entirely of club members.

A golf pro may borrow from another club if you have exhausted all options within your own club. The team will be eligible to win skins and the net prize.

### Prizes:

Gross Winners: The overall gross winner of this event will choose the charity we support the following year. To win this title your team must be solely formed from the club you are representing.

The pro will win a cash prize and each WRDGA player will win pro shop money.

Net Winners: The overall net winner will get their names on a plaque to display at their club. To win this prize a minimum of 3 players must represent the club.

The pro will win a cash prize and each WRDGA player will win pro shop money.

Pros' Game: The pros will compete in a skins game. The total pot shall be split evenly amongst any skins won at the event.

### Absenteeism:

If a WRDGA player does not show up the team may compete with 3 players.

If a Pro is late the team will use scores from that hole played and the pro's score can count on remaining holes.
